University of Windsor - *Windsor, ON* Sep 2024 - Present
Bachelor of Computer Science, Honours Computer Science Co-op

- Software Engineering Specialization

Relevant Experience

Software Developer @ Arguson Projects Inc. - *Mississauga, ON* Aug 2023 - May 2025

- Started as a high-school co-op intern and was **re-hired** part-time based on **performance**
- Built and developed **30+ Excel/VBA** macros, cutting finance workflows from **1 hour** to **5 min** each, saving **100 hours per month.**
- Setup automations with **CMiC** exports, enabling macros to run automatically when exported, saving more time.

STEM Camp Counsellor @ Boswin Robotics - *Mississauga, ON* Jul 2024 - Aug 2024

- Led daily Minecraft/robotics blocks for **10-15 campers/session**, delivering **80+ hours** of hands-on instruction over summer
- Collaborated with a team of camp counsellors to plan and create STEM activities

Additional Experience

Sales Associate @ ColdHaus Direct. - *Windsor & Brampton, ON* May 2025 - Present

- **Hired** during the school year as the company's **first** part-time employee, based on performance and reputation for dependable service and reliability
- Recognized as the **most reliable** Summer Sales Representative; entrusted with overnight out-of-town runs and relief coverage across multiple territories
- Delivering beverages to up to **40 stores** and responsible for up to **500, 25lb cases** per day, independently

Projects

Cortex - *SOON Hackathon 2026* May 2026

- Developed a platform that provides companies shared, real-time AI context across departments through a LLM system.
- Built using Next.js, React, TypeScript, Tailwind CSS, Supabase, and Claude AI.

ALTF4 Invest - *WinHacks 2026* Feb 2026

- Developed an Investment learning platform to help beginners understand investing
- Built using JavaScript, HTML/CSS, Next.js, React, Typescript and Supabase.
